CREASYSUBS LIVE
The Subtitling Solution for Live

Takes away the constraints of classic process of subtitling. CREASYSUBS LIVE is a complete live subtitling solution including the state-of-the-art speech recognition technology. For live and offline subtitling.
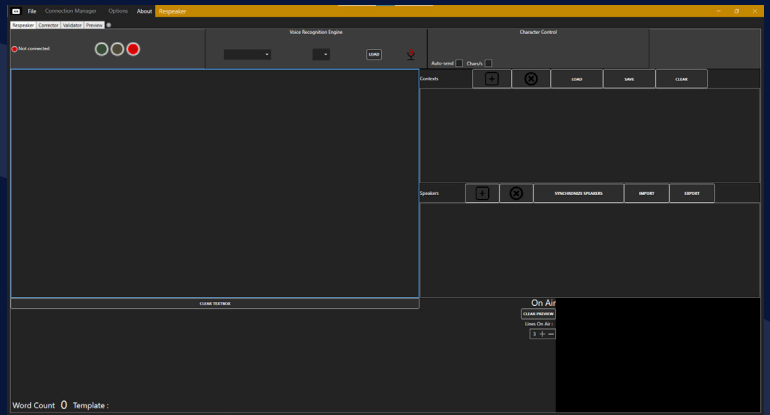

IN REAL TIME

Voice recognition : transcribe subtitles in text with punctuation from videos and live audios.

Subtitles transcribe in their native language.

Saved as files in any kind of formats.

Collaborative work : re-speakers, validators and correctors can work in the same time on a live event.
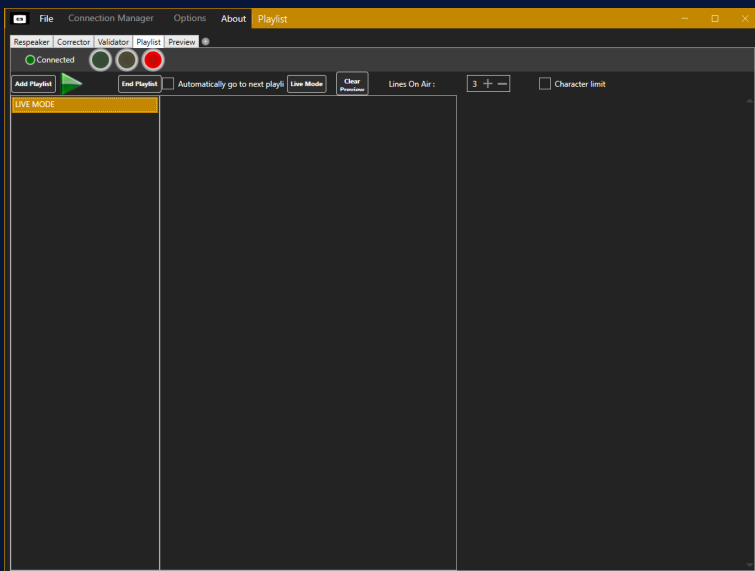

SUBTITLES MANAGEMENT

Manage your subtitles for live or automated playout.

Ready to be sent «On-Air».

Play all types of formats.

High quality translation.

Manage third-party (as Cavena, Broadstream...).

CREASYSUBS DISTRIBUTOR
Subtitles Broadcast Solution

CREASYSUBS DISTRIBUTOR is a customized and extendable subtitling system allowing to receive subtitle streams to broadcast them to multiple destinations.

ABLE TO :

Read subs streams and convert them into other formats to SDI / HDS SDI / OP47 or DVB systems.

Use any classic or live systems as Input (API).

Use any kind of subtitle files when controlled by automation.

Stream in any formats (Open Subtitling, OP47, NEWFOR).

Control third-party systems (Cavena, Broadstream, FAB, Do Caption, etc...).
